### 2.1 Empathy Map

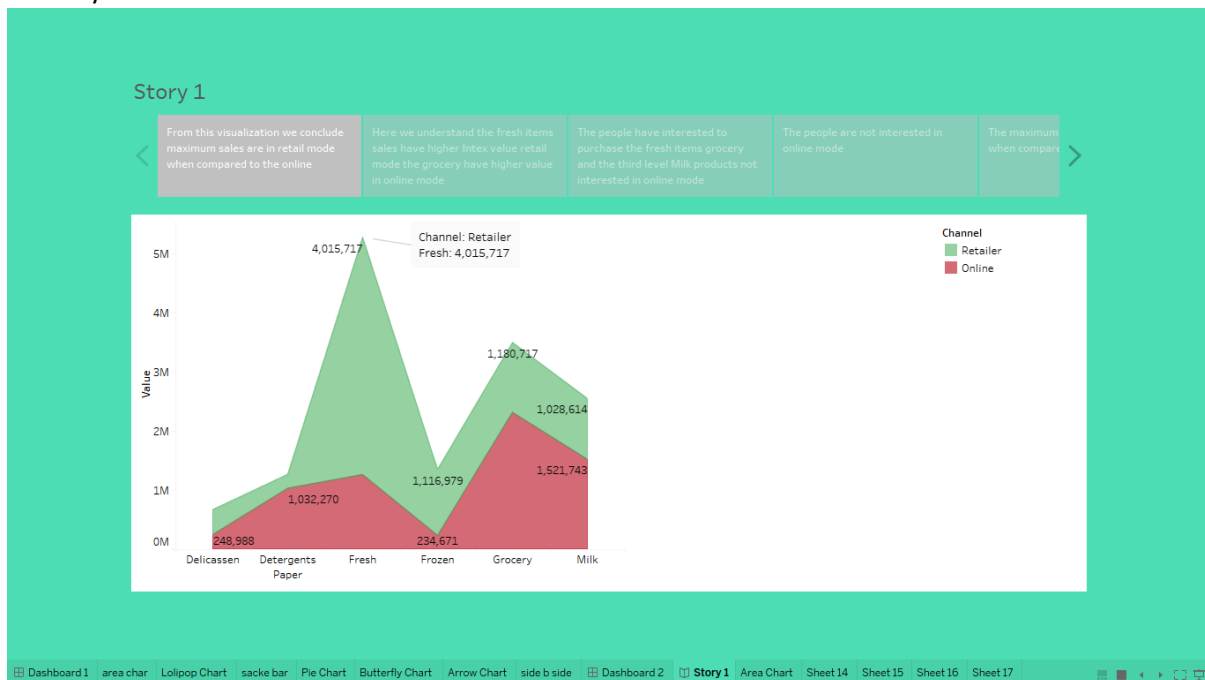

## 2.2 Idea & Brainstorming Map

## 3.RESULT:

### Story 1:

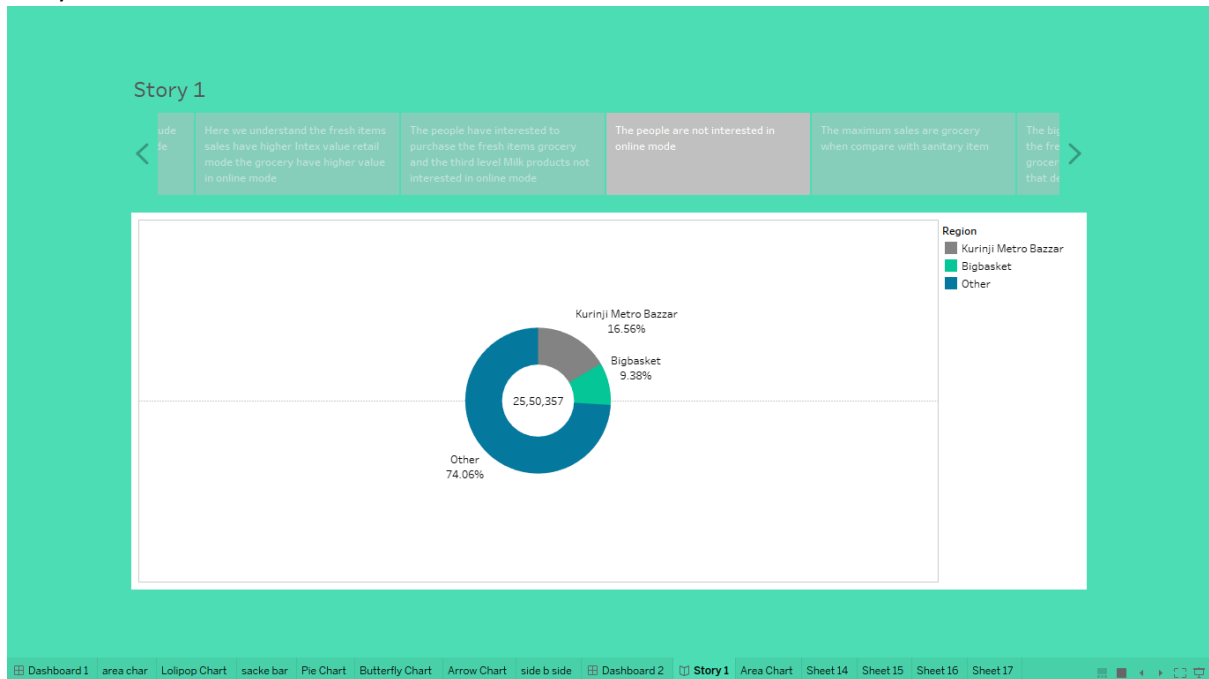

Story 2:

Story 3:

## Story 4:

## Story 5:

## Story 6:

## 4.ADVANTAGES & DISADVANTAGES:

### Advantages

- ❖ This Analysis will help the traders to sale the people's most demandable products
- ❖ From this visualize consumer can identify the worthable product available region

### Disadvantages

- ❖ The numerical where insufficient, due to this we can't interpret collaboratively

## 5.APPLICATION:

- ❖ Analysis of spenders on the site
- ❖ Through these maps one can know the demand and fulfillment of people's goods

## 6.CONCLUSION:

- ❖ From this visualization we conclude maximum sales are in retail mode when compared to the online
- ❖ Here we understand the fresh items sales have higher Intex value retail mode the grocery have higher value in online mode
- ❖ The people have interested to purchase the fresh items
- ❖ The maximum sales are grocery when compare with sanitary item
- ❖ The big basket took the lead to sell the fresh product
- ❖ The people are not interested in online mode

## 7.FUTURE SCOPE:

- ❖ Among these data, there are few online spenders, which may increase online purchases in the future
